2. Advanced Excel and Tableau (Data Visualization) - IIT Kanpur: Certification in data visualization using Excel and Tableau.
3. IBM Certifications: Various IBM-recognized certifications showcasing expertise in relevant technical domains.

Projects

Startup Funding Visualization

- Developed an interactive dashboard analyzing the **Indian startup ecosystem (2015–2020)**, showcasing funding trends, geographical distribution, and major investors. Delivered actionable insights through data visualization, identifying key industry patterns and investment dynamics.

Housing Sales Dashboard

- Developed a **real estate dashboard** with advanced data visualizations to analyze market trends, pricing, and sales patterns, delivering actionable insights for decision-making. Identified key anomalies and correlations, enhancing data-driven investment strategies.

MPG Project:

- Developed a **predictive model integrated into a Streamlit web application**, allowing users to interactively analyze and interpret machine learning predictions. Focused on creating an intuitive interface to ensure accessibility and ease of use.

Delivery Time Prediction:

- Developed a predictive model for food delivery time estimation using machine learning, improving accuracy and optimizing delivery efficiency. Designed an interactive web app to showcase model results, enhancing user accessibility and visualization.
